Why choose Schneider Electric's solar products and solutions?

Future-Ready for Your Smart Home

Powerful solar monitoring platform
Access from anywhere
Leading compatibility

Simple user interface
Access from any devices
Advanced data security

20+ Years of Experience

We provide mature residential solar and storage solutions with unmatched reliability and 20+ years of experience

Long-Term Reliability

We provide you with robust, long-term and highly reliable solutions throughout the product's lifecycle

Schneider Electric's Ecosystem of Products and Solutions

Commitment to The Future

With our strong heritage in solar power conversion and energy management, we're committed to solar and storage as a mega trend in power generation

Solar + Storage Solutions

Secure power and optimize energy usage for self-consumption or time of use rates. Schneider Electric's Solar and Storage solutions are ideal for grid-tied applications with backup power.

Schneider Electric's solutions include storage inverter/chargers, solar charge controllers, monitoring and balance of systems, ensuring Life Is On everywhere, for everyone and at every moment.

Conext™ XW Pro Storage inverter/charger

- The ultimate backup power and off-grid performance
- Stores solar energy in batteries
- Provides backup power during power outages

MPPT Charge Controller

- Optimize the solar energy production
- Recharge dead batteries from solar

Monitoring and Configuration

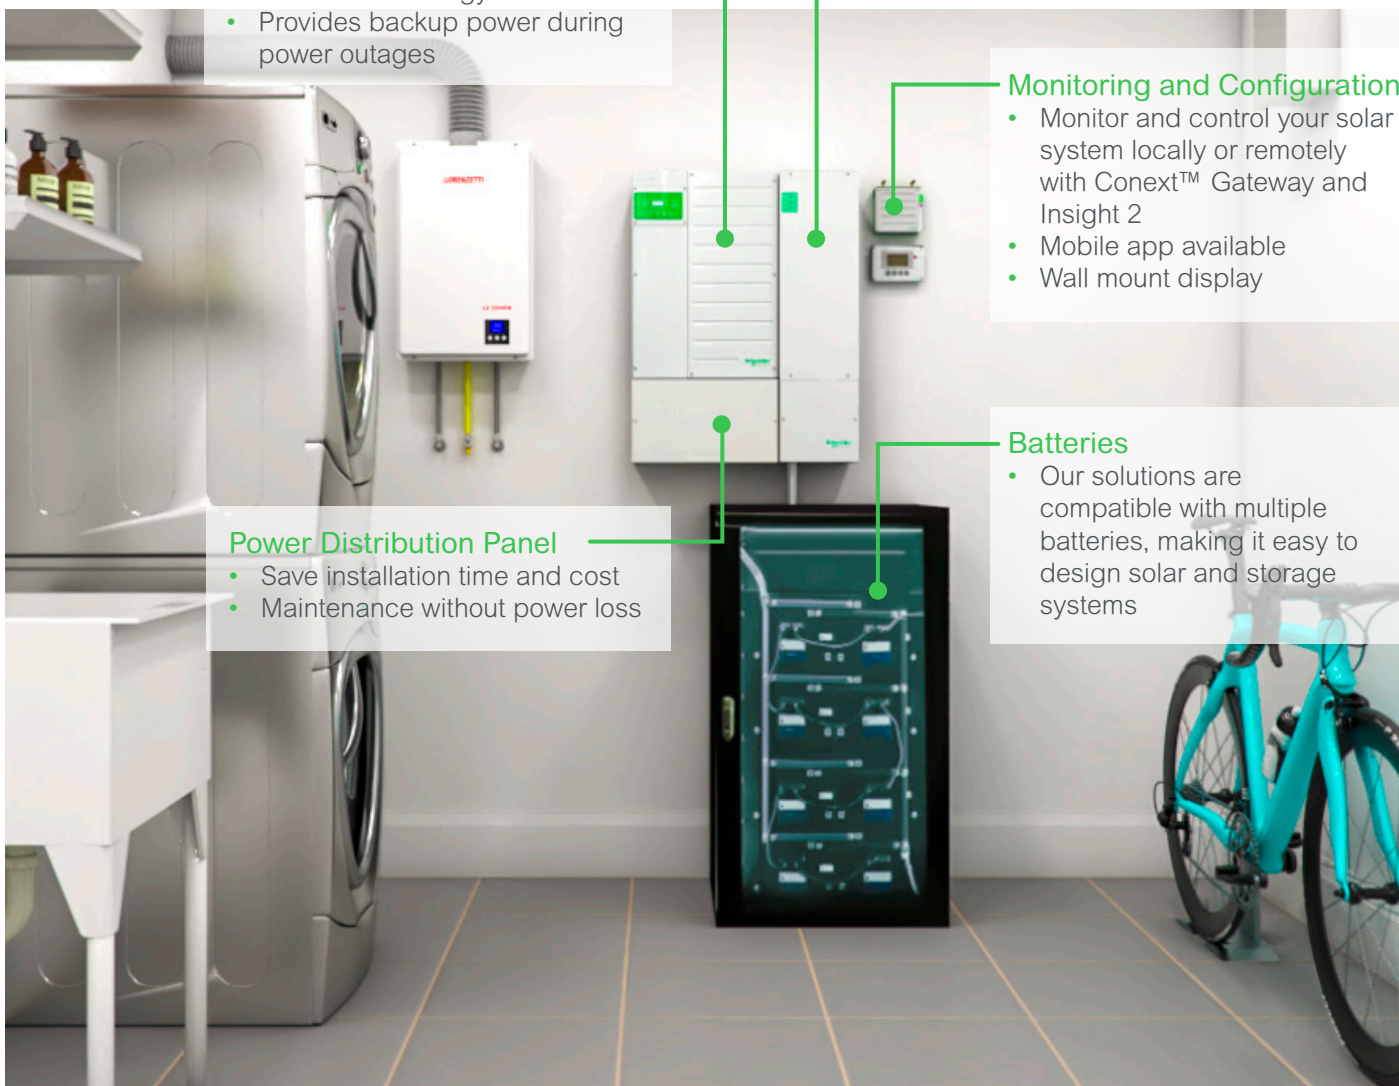

- Monitor and control your solar system locally or remotely with Conext™ Gateway and Insight 2
- Mobile app available
- Wall mount display

Power Distribution Panel

- Save installation time and cost
- Maintenance without power loss

Batteries

- Our solutions are compatible with multiple batteries, making it easy to design solar and storage systems

Select the right products for your needs

Q What's your primary goal?

Sell Solar to the grid with backup power

Solar Self Supply
 • Grid-tied with backup power
 • Off-grid

Gain energy resilience without Solar
