Reference Code: 231F-01

This design shows a Generac PWRcell system with a PWRcell ATS in a whole home backup configuration. Use this system configuration to provide backup power to the main service panel loads using Generac Smart Management Modules (SMMs) for load shedding in accordance with NEC 702.4(B) and Article 220.

### Whole Home Backup / Solar + Storage

- 1 PWRcell Inverter
- 1 CT Kit (incl.)
- 6 PV Links
- 1 PWRcell ATS
- 1 PWRcell Battery
- 1 Generac SMM

This configuration is acceptable with 200A or larger utility services.
