CombiMaster 12/3000-160 (120 V)

Product code: 35513000

Unmatched performance at an unprecedented price

Designed with the customer in mind and using the latest technology, the CombiMaster range is all about user-friendliness and reliability. But don't let that friendly appearance misguide you: the powerful CombiMaster range drives even the heaviest and most sensitive loads with ease!

With the CombiMaster, power dips and failures belong to the past. The automatic AC transfer system switches between generator or mains and inverter output, ensuring a constant power supply. Its *Power Assist* function prevents tripping of the mains fuse in case you're connected to a weak land line or small generator.

The CombiMaster range delivers unmatched performance and value for money. As you would expect from Mastervolt, the CombiMaster is completed with MasterBus, CZone and NMEA 2000 compatible communication, allowing for a broad range of monitoring and system integration options.

Remote Control and Monitoring options

- · MasterBus compatible via SmartRemote or EasyView 5 display.
- · CZone / NMEA 2000 compatible via Touch 5 or Touch 10 display.
- · NMEA 2000 compatible via 3rd party multifunctional display.

Features

- · Most compact and lightweight Combi in its class.
- · Reliable, hum-free and longer operation from your batteries.
- · Starts even the heaviest and most sensitive loads.
- · Intelligent 3-step+ battery charger for faster and safer charging.
- · Automatic switching between mains and inverter mode.
- · Power Assist prevents blown mains fuses.
- · Generator compatible.
- · Integrated CZone, MasterBus and NMEA 2000 communication.
- · Quick installation with heavy duty connections.
- · E-mark certified.

Specifications

Output waveform

Specifications sine wave inverter

Nominal DC voltage 12 V (10.2-16 V)

Output voltage 120 V

Output frequency 60/50 Hz (configurable)

Continuous power at 40 °C / 104 °F, cos phi 1 2600 W 4500 W Peak power (30 sec) 6000 W Surge power (5 sec) Max. efficiency 93 %

Battery no-load power consumption 30 W (on mode) / < 1 mA (off mode)

true sine

10 W Energy saving mode consumption Synchronise with mains yes

Specifications battery charger

Input voltage range 90-140 V Max. input current 28 A (adjustable)

Max. charge current at 40 °C / 104 °F 160 A at 14.25 V (configurable)

Battery temperature sensor yes, included

Battery voltage sense automatic compensation

Specifications transfer system

AC input 30 A (switched)

AC output 55 A AC input fuse ves Transfer speed

Transfer voltage range wide: 70-140 V / narrow: 90-140V

40-65 Hz Transfer frequency range

General specifications

Galvanic isolation yes Display/read-out LED display 448 x 284 x 155 mm Dimensions, hxwxd 17.6 x 11.2 x 6.1 inch

Weight 9.3 kg 20.5 lb

ABYC A31, UL1236, UL1741, SAEJ1171 Compliance

Technical specifications

Power Sharing

Charge characteristic UoUo, automatic / 3-step+ for flooded, Gel/AGM and MLI, configurable Recommended battery capacity 300-800 Ah (based on gel batteries, may differ for other types)

yes, configurable by means of mechanical jumper Ground relay

Temperature range (ambient temp.) -25 °C to 60 °C, derating > 40 °C

-13 to 140 °F Cooling vario fan

Protection degree IP23 (vertical mounting) Safety class IEC protection class I

Humidity protection conformal coating, max. 95 % relative humidity, non condensing Protections over-temperature, overload, short circuit, high/low battery voltage Power Assist

yes, supports AC input with power from the battery yes, allows you to select AC Input fuse setting

MasterBus compatible yes CZone / NMEA 2000 compatible yes
