

Features

Most panel compatible CT on the market

For use with the Neuroio Home Energy Meter (W1)

Quick and easy installation

Universal Current Transformer Kit

Model: SEK-2U

The Neuroio Universal Current Transformer (CT) Kit allows for easy installation of the Home Energy Meter (W1) in all North American and European panels. Designed with the toughest installation challenges in mind, this unique CT can be installed in all panel configurations, including those with uninsulated live busbars, four-wire configurations, and extreme low wire clearances. Each kit includes two current transformers.

What’s in the box

- ✓ 2x Universal Current Transformers
- ✓ 1x Wire Tap
- ✓ 1x Jumper Wire
- ✓ 1x Installation Guide

Specifications

Voltage	110-240 VAC	Wire Length	4'
Frequency	50/60 Hz	Built-in Protection Diode	Yes
Max Primary Current	200 A	Warranty	1 Year
Accuracy	±1% of reading from 2-264 A	Operating Temperature	-32°F to 149°F
CT Dimensions (L,W,H)	2.97" x 0.47" x 1.91"	Weight	0.44 lbs
Window Size	0.85" x 0.96"		

The Neuroio Universal Current Transformer Kit is certified for use with the Neuroio Home Energy Meter and is compatible with most residential electrical panels. Add Current Transformer Extenders (CTE-10) to lengthen the leads as needed.
