SMART ENERGY

Smart EV Charging with SolarEdge

- Wi-Fi enabled, level 2 charging station, with up to 40A (9.6kW) charging power
- Full charging control, including remote activation, smart scheduling, and LED charging status
- Industry-leading 5-year warranty⁽¹⁾
- Rated for indoor or outdoor use
- Plug-in unit, easily modified to support hardwired installations⁽²⁾
- Suitable for use with or without a SolarEdge PV system

Optimized charging, when connected to a SolarEdge inverter⁽³⁾:

- Charges EV with 100% renewable energy by using excess-solar mode⁽⁴⁾
- Synchronizes with the full SolarEdge ecosystem (PV, StorEdge, and smart home devices), all managed by a single mobile app
- Ideal in cases where the inverter is located far from the vehicle

(1) Charging cable is subject to limited warranty terms, for more information please refer to: <https://www.solaredge.com/warranty>

(2) Hardwired installation by professional installer only

(3) Connection to standard HD-Wave inverters (Non-StorEdge) via dedicated solar boost kit (SE-EV-KIT-V3UPG-01)

(4) SolarEdge import/export meter is required for controlled excess solar charging
