## Mounting System Design & Bill of Materials Generator

*Revamped Configuration Tools from SnapNrack*

- Clean user interface for generating a bill of materials on a single screen
- Simplified drawing pallet to lay out multiple arrays on a single screen
- Ability to toggle between Ultra Rail, TopSpeed® Universal & TopSpeed® *Original* Mounting Systems during design process
- Full visual representation of mounting systems
- Ability to save projects to an individual or company profile for future reference
- Engineering documentation available for permitting support
- Pricing tool included for all users for cost estimation
- Integration with **Blueprint Design Services** for planset generation

The interface shows a configuration sidebar on the left with the following settings:

- End Clamps: Ultra Rail
- Ultra Rail End Clamp: Ultra Rail End Clamp (Silver)
- Roof Attachment: AnchorFoot
- Attachment Option: 2 Sealing Wood Screws
- Max Attachment Spacing (in): 100"
- Array Skirts: Yes
- Stagger Attachments: Yes
- Tilt Up: Yes
- MLPE Kit: No

The central drawing area displays a 4x4 grid of mounting modules. Below the grid, the **Ultra Rail Calculations** section shows:

Portait	attachment/cantilever
Interior Modules	72 in. / 24 in.
Edge Modules	72 in. / 24 in.
Corner Modules	72 in. / 24 in.
Landscape	attachment/cantilever
Interior Modules	72 in. / 24 in.
Edge Modules	72 in. / 24 in.
Corner Modules	72 in. / 24 in.

The right sidebar contains an **Overview** section and a **Bill of Materials** section.

**Overview**

Item	Qty
UltraRail Array(s)	1
Total Rail Length	1077.6 (inches)

**Bill of Materials**

Item	Qty
UR-40 Rail, 172"	12
UR-40 Splice	6
UR-40 End Cap	12
Ultra Rail Mid Clamp	18
Ultra Rail End Clamp	12
Ultra Rail AnchorFoot	24
Sealing Washer Wood Screw, #14 X 2 3/4", SS	48
Universal Skirt Frame Mount	12
Universal Skirt Cap	12
Universal Double Portrait Skirt, 83"	6
Grounding Lug	6
