Start Installing SnapNrack & S-5! parts Today!

SnapNrack & S-5!

have partnered to provide installers the best experience on metal roofs. Installers can now order the most popular S-5! Clamps and Brackets pre-assembled with SnapNrack components, saving time and simplifying order management. As the industry leader in innovation, SnapNrack is excited to partner with the industry leader in metal roof attachments.

All Purpose L Foot feat. S-5! Corrubracket 100T

- Top-fixed, low profile metal roof bracket for corrugated roofing ensures fastening out of the water plane

All Purpose L Foot feat. S-5! Corrubracket 100

- Strong enough for heavy-duty, commercial applications, mount almost anything to 7/8" and 3/4" rib pitch U.S. corrugated metal roofing

All Purpose L Foot feat. S-5! SolarFoot

- Designed for exposed-fastened metal roof profiles, such as AG-Panel or R-Panel

All Purpose L Foot feat. S-5! S-5-N Mini

- Angled setscrews and an innovative insert ensures a superior fit to most nail strip profiles with a non-penetrating clamp

All Purpose L Foot feat. S-5! VersaBracket-47

- Versatile attachment solution for bottom-fixed, trapezoidal, exposed-fastened metal roof profiles

Ultra Rail Mounting Clamp feat. S-5! ProteaBracket

- Versatile component for face-fastened, trapezoidal-rib metal roof profiles

Quality. Performance. Innovation.

SnapNrack solutions are focused on simplifying the installation experience through intuitive products and the best wire management in the industry.
