

SIMPLIPHI YOUR POWER WITH

AccESS TO ENERGY STORAGE & MANAGEMENT

Energize and protect your home or business from power outages and lower your utility bills with a **safe, simple, reliable** and **practical** energy storage system.

Installation should be completed by a licensed C10 or C46 installer.

Simple

- Easy to use power storage solution
- All equipment you need in one enclosure: PHI batteries + built-in-inverter + monitoring and control
- Seamless integration with new or existing solar installations
- Keeps power on for your critical loads during grid outages
- Programmable for TOU, peak-shaving, self-consumption and back-up
- On- or off-grid
- No thermal monitoring, cooling, fire suppression or ventilation equipment required
- No maintenance

Practical

- Stores electricity from solar, wind, diesel/gas generators, the grid or any combination
- Enclosed in a NEMA-3R rated cabinet for safe indoor and outdoor use in all climates
- Remote system monitoring by web browser or mobile device app
- Internal transfer switch automatically disconnects from the grid during power outages and provides back-up power
- Scalable to meet any energy requirement by connecting additional enclosures

Reliable

- 10-year warranty on PHI batteries with 10,000 charge/discharge cycles over lifetime
- High efficiency rate — more usable power for you
- Operates in broad temperature range of -4 to 120 degrees F
- Delivers multiple charge/discharge cycles per day

Safe

- Environmentally benign and non-toxic Lithium Iron Phosphate (LFP)
- No Cobalt - no hazards
- No risk of overheating or fire
- No fumes or out-gassing

“After Hurricane Maria hit Puerto Rico, SimpliPhi’s AccCESS made our transition to solar energy a breeze. Now our guesthouse is always energized and environmentally friendly”
 - Guesthouse owner Steve, via email

“Today, our customer lost power from the utility company and the AccCESS continued working smoothly. The AccCESS has passed the test in Puerto Rico!”
 - Installer Jesus S., via email

“Thank you, SimpliPhi and AccCESS, for helping me to simplify my life!”
 - Homeowner Santiago V., via email
