

SIMPLIPHI YOUR POWER WITH **GENNY EMERGENCY POWER KITS**

Rechargeable and portable battery-powered generators that provide **safe, simple, reliable and practical** emergency and recreational power solutions.

Simple

- Easy to use, plug-and-play power source
- Mobile and portable — hand-carry or roll with retractable handle
- All the equipment you need in one kit: PHI batteries + built-in-inverter + solar panel charger + power cord
- AC outlets and USB ports to charge your electronics
- No maintenance

Reliable

- Sufficient power to operate mobile phones, computers, appliances, power tools, lighting and more for hours at a time
- Long-life — charge and discharge thousands of times
- Retains charge for several months without use — nominal self-discharge
- 5-year warranty on integrated PHI batteries
- Designed, engineered and manufactured in California, USA
- Proven in the field for more than a decade by film studios for remote, off-grid power

Practical

- Charge and use simultaneously
- Charge batteries with solar, wind, generator, grid power or any combination
- Take with you anytime, anywhere: car, bus, train, camping, emergencies, evacuations
- Versatile for use indoors and outdoors
- Save fuel: Use your diesel generator to charge a Genny rather than as primary power

Safe

- Environmentally benign, non-toxic Lithium Iron Phosphate (LFP)
- No Cobalt — no hazards
- No risk of overheating or fire
- No fumes or out-gassing

GENNY EMERGENCY POWER KIT RUN TIME CHART

	Little Genny Run Time	Big Genny Run Time
Laptop	5 hours	19 hours
Tablet	15 hours	57 hours
Emergency Light LED (10W)	30 hours	114 hours
TV	4 hours	15 hours
Refrigerator (28 cu. ft.)	7 hours	27 hours
Cell Phone Charging	49 hours	190 hours
Fan	2 hours	9 hours
Radio	29 hours	114 hours
18V Lithium Power Tool Battery Charger	4 hours	30 hours

This Little Genny has made my camping and surf trips so much more enjoyable and reliable. When in remote locations, this conveniently sized portable generator allows me to set up my laptop for work when needed and movies when it's time to relax. Whether on the beach or in the mountains I bring it everywhere. The fold out solar panel is awesome too and ensures I'll always have this thing charged up and ready to light some lights, run my laptop or keep my camera gear/phone charged.

Also since it's made in the USA I know I'm getting a safe product rather than some of the cheap stuff that comes from overseas and is "assembled" in the USA. Truly nice to be able to store clean energy from the sun in a clean chemistry battery like LFP. Highly recommend!
